Pratik Karanjit

Full Stack Developer

Passionate MERN Stack Developer with expertise in frontend, backend, and MongoDB . Actively seeking an internship to contribute and learn. Proficient in HTML5, CSS3, JavaScript. Skilled in Node.js, RESTful APIs, and authentication for robust backends. Collaborative team player with a growth mindset. Let's connect for internship opportunities and collaboration!

Experience

CODSOFT Company

- ReactJS Intern
- Web Developer Intern

Projects

Login Management System

MERN Stack

- Developed a comprehensive login management system with essential features.
- Implemented user registration, login, logout, account deletion, and deactivation functionality.
- Designed user profiles with options for updating email, password, and profile information.

E-commerce website

HTML, CSS and MERN Stack

- Developed a fully functional e-commerce site using MERN stack.
- Features: User authentication, product management, search, and shopping cart.
- Designed responsive UI with HTML/CSS.
- Implemented CRUD for admin.
- Utilized MongoDB for data storage.

Portfolio Website

HTML, CSS and MERN Stack

- Created a single-page portfolio website using HTML, CSS, and the MERN stack.
- Featured three main sections: Home, Contact, and Resume.
- Developed a contact form that allows users to send emails directly to me for inquiries and collaborations.

LinkedIn Clone

React with Redux, Firebase, MUI

- Developed a linkedIn clone where users can register/login and generate posts.
- Firebase is used for user authentication.
- MUI for component designing and overall beautification.
- Hosted via Firebase.

Other Projects

- Regex Website - Utilized database to store regex patterns and display it according to the requirement.
- Recipe Website - Displays a variety of recipe for different dishes.
- ChatGPT Clone - Utilized OpenAI API to make it functional.
- 30 Days MERNventure Challenge.
